Introduction

Welcome to your Natal Chart report.

Your Natal Chart report is an astrological chart based on the mathematically precise positions of the planets and the Sun & Moon at the time, date and place of your birth. It provides you with insights into your character and personal life potentials by indicating the strengths you have and the challenges you experience in life.

Your Natal Chart report covers among other things your primary motivation in life, your identity, emotions, mentality, love and sexuality, spirituality, earning ability and career potentialities and so on.

In some parts of the report you will come across apparent contradictions in the descriptions of your character. This is to be expected; people are complex and have many contradictory facets to their personality.

Also, you are a good conversationalist because you are curious about what interests others. Intellectually, you have a questioning mind, coupled with the capability to form your own opinions. Negatively, you can have a tendency to be judgemental or overly critical of people whose views contradict your own. You may engage in gossip.

Venus Square Saturn (6° 13' A)

Regarding matters of the heart, you are cautious and inclined to put practical considerations before romantic desires. You have a tendency to exercise self-control in love, perhaps at the expense of emotional satisfaction and spontaneity. You are attracted to people older than yourself and respect their life experience and maturity. At times, you enjoy time alone and are content in your own company. Alternatively, you can be emotionally cool and indifferent, even hard-hearted and cold. There may be difficulties in expressing affection and discomfort with intimacy. You can lack self-confidence in love, resulting in periods of loneliness. Estrangements and separations in love are possible.

Venus Square Ascendant (0° 55' A)

You have a pleasant and friendly personality that other people find attractive. You possess physical appeal, a charming nature and a good fashion sense. You may have artistic talents; you will certainly have an appreciation of the arts and culture. You have good taste and an eye for style and design. Negatively, you can be vain, superficial and inclined to foster contacts with the 'right' people to advance your own interests.

Mars Sextile Neptune (7° 22' A)

You have the ability to succeed in activities that involve your creative and imaginative powers. You can effectively direct your energies into spiritual pursuits and may develop an interest in metaphysical subjects and physical disciplines such as yoga. Swimming and water sports may appeal.

Mars Opposition Pluto (1° 53' S)

Quite simply, this aspect gives you the power to express your energies in either a positive and constructive manner or in a wilful and ruthless fashion. Whichever way you use it, you are a force to be reckoned with. Positively, you have extraordinary staying power, which enables you to work long and demanding hours and to push yourself to the limit when required. Negatively, a desire to dominate or manipulate people can backfire on you and cause confrontations and power struggles. Worse still, you can become emotionally reactive and vengeful if you don't get things your own way. Injuries are possible in high-risk situations or environments.

Mars Sextile Ascendant (1° 23' S)

Hard-working and industrious, you are goal conscious and determined to realise your personal desires. You are ambitious for recognition and you achieve successes through your own efforts and self-motivation. You are a good organiser and like being in charge of situations. Mars Opposition Midheaven (3° 38' A)

You are ambitious for personal success and will use whatever means you have at your disposal to get to the top. You desire recognition in your career, however, you may find that the demands of your job and those of your family impinge upon each other and cause you problems in both areas. Vocationally, you know what you want and how to get it. In fact, you can become a high-flyer in just about any area you apply yourself. You can be quite

combative which can cause quarrels at work and home.

Jupiter Sextile Moon's North Node (0° 21' S)

You are generally successful in your dealings with people, as you have the ability to adapt to their needs. You will make many contacts in life and, in most cases, your personal relationships and partnerships should be harmonious and positive.

Saturn Sextile Uranus (3° 15' A)

Change doesn't really bother you; in fact you generally see it as a force for good. You understand that nothing in life remains the same forever and, in time, the old always has to give way to the new. Keeping your 'wild side' under control generally keeps you out of trouble.

Saturn Trine Neptune (1° 09' S)

Spiritual values are often more important to you than material success because you recognise that the latter doesn't provide lasting satisfaction. You have a deep desire to help those in need.

Saturn Conjunct Ascendant (7° 08' A)

You are quite a complex person; some days you come across as shy or inhibited and other days as controlling. You are very practical and take your responsibilities seriously. You are quite self-contained and tend to keep your own counsel, consulting with others only when you need to. This can make you appear aloof or distant and give you a reputation for unilateral decision-making. You tend not to suffer fools gladly and have little time for trivialities. It is possible that you may experience periodic bouts of low vitality.

Uranus Sextile Neptune (4° 24' S)

The aspects between the so-called generational planets cause effects that are more collective than individual. On a personal level, you are someone who has an interest in gaining spiritual understanding. You may be psychically gifted, if other factors in your horoscope support this.

Uranus Square Moon's North Node (6° 33' A)

You prefer the company of original, innovative and unconventional people. You enjoy change and variety with regard to your associations and can be inclined to make and break contacts suddenly and unexpectedly. You may associate with people who expose you to unsettling or disruptive experiences. Shared stress, anxiety and tension can flare up within relationships.

Neptune Trine Ascendant (5° 59' A)

You have an active imagination and are easily inspired and may show great talent in any of the creative fields - especially music, theatre and writing. You instinctively tune into others and seem to understand their needs without them saying a word.

Pluto Trine Ascendant (3° 16' S)

You have the ability to get people to do as you wish, usually through firm persuasion. Other people are attracted to you because you have a magnetic presence. You will win friends and influence people because you respect power and know not to abuse it.

Pluto Conjunct Midheaven (1° 45' A)

You desire to become a person of some significance or importance in the world. You have the capability to be a leader or a public figure, however, you need to take care not to abuse your authority, as it is likely to create enmity in others. If you mis-use your power, the past may catch up with you and harm your reputation. At some point in your life, there is a strong possibility you will undergo a radical change in direction that may surprise both yourself and others.

The Qualities and Elements

The signs of the zodiac are grouped into two basic categories. These are known as the Qualities and the Elements. The Qualities describe fundamental modes of activity and the Elements describe temperament. There are three Qualities: Cardinal, Fixed & Mutable and four Elements: Fire, Air, Earth & Water. Your horoscope has varying degrees of each Quality and Element. The percentages you have of each will determine their importance in your life. The higher percentages will be more powerful in your life, the lower percentages will be less powerful.

The Qualities

29% Cardinal

The Cardinal signs are Aries, Cancer, Libra & Capricorn. The more planets you have in any of these signs the more Cardinal you are:

Cardinal people are action oriented and initiating. They are interested in promoting change and bringing new things into the world. They are direct, assertive and like to take charge of situations. They are ambitious, independent and dislike being supervised. They are good at starting projects, but not so good at completing them. They have abundant enthusiasm and are very resourceful. Cardinal people generally don't hold grudges.

21% Fixed

The Fixed signs are Taurus, Leo, Scorpio & Aquarius. The more planets you have in any of these signs the more Fixed you are:

Fixed people are persevering and enduring. They achieve results in life through determined and persistent effort. They tend to do one thing at a time and are extremely practical in their approach to everything. They are not easily influenced by others and can be quite firm or stubborn once their minds are made up about something. They tend to hold onto things and are reluctant to change. They are staunch, but they can also be inflexible and at risk from becoming set in their ways.

50% Mutable

The Mutable signs are Gemini, Virgo, Sagittarius & Pisces. The more planets you have in any of these signs the more Mutable you are:

Mutable people are the most flexible of the three types. They are able to go with the flow. They are changeable and adaptable, but also indecisive and restless. They are sensitive to the opinions of others, but they can also be impressionable and easily influenced by environmental circumstances. Mutable people lack the stubbornness of the Fixed signs and the forcefulness of the Cardinal signs, which makes them good mediators and go-betweens.

The Elements

21% Fire

The Fire signs are Aries, Leo & Sagittarius. The more planets you have in the Fire signs the more pro-active and self-determining you are:

The Fire signs go for freedom of action and power. They strive for recognition in life. They are out-going and enthusiastic, adventure seeking and powerful. They are ardent, passionate, assertive, demonstrative, bold and courageous. They can also be impatient and bossy, wilful and reactive, especially when they face delays or obstructions in their path.

29% Earth

The Earth signs are Taurus, Virgo & Capricorn. The more planets you have in the Earth signs the more practical and needful of security you are:

The Earth signs seek material security. They are down-to-earth, pragmatic, cautious, sensible and conservative. Hard-working and industrious, Earth signs are able to put into effect the ideas and inspirations of the other signs. They can be accumulative, possessive and overly materialistic. They are also sensual and pleasure seeking.

29% Air

The Air signs are Gemini, Libra & Aquarius. The more planets you have in the Air signs the more pro-active and self-determining you are:
